# PUBLI The Controlled Distribution Platform

# UNIQUE SOLUTION

for the most secure distribution and documents sharing

### Complex platform with the highest level of safety, which adapts to you.

We have developed a solution that prevents unwanted distribution, downloading and printing sensitive information. Gain an overview of documents and ensure that they are up-to-date on all partner or employee devices. Always keep contracts, directives, technical drawings, manuals, business documents and more up-to-date with protection against unwanted spreading. Define rules for your documents and simplify their distribution.

#### SAFETY

Highest data protection with recipient-side content encryption and secure delivery with device identification itself.

#### **SUPERVISION**

Gain complete control over who has access to documents in the secure electronic library, when and on what device.

### Publications opened and download

#### MONITORING

An overview of the use, download and printing of distributed documents to ensure traceability and compliance with established business processes.

## ELECTRONIC LIBRARY

secure distribution and access to sensitive information and data

Γ'n

#### **CONTROLLED DISTRIBUTION**

Control who can read, share or print important documents.

#### ACCESSIBILITY

Documents are available on computers and all mobile devices, tablets online and offline.

#### **E-LIBRARY**

Clear display of documents in our own secure electronic library brings convenience for administrators and recipients of documents.

### **AUDIT AND SUMMARY**

Analytics provides a detailed overview of working with documents on the recipient's side.

#### **UPDATE OF DOCUMENTS**

Document changes are automatically synchronized on all devices to prevent outdated and multiple file versions.

#### **SUPERVISION**

Confirmation of reading documents, creation of checklists and tests enables effective control and fulfillment of process requirements.

## **OTHER FUNCTIONS**

### unique interactive elements

#### **RESPONIVE AND INTERACTIVE DOCUMENTS**

In Publi you can create completely responsive e-books or documents with interactive elements called mBooks. These can be enriched with animations, videos and other multimedia elements to make them easier to understand.

#### **TESTS OF KNOWLEDGE AND UNDERSTANDING**

Publi includes tools for creating and generating knowledge tests. Tests can be included in the training and continuing education of employees. They can be used to check understanding and subsequently evaluate success.

#### **EFFICIENT INSPECTIONS AND CHECKUPS**

Publi can be used for creating checklists, distribution and inspection. Repeated tasks, such as maintenance or inspections, where the employee goes through a list of tasks during work and the resulting states are monitored and reported to a superior. Filling in the list of tasks can take place off-line, i.e. even in difficult conditions.

#### SCIENCE BOOKS AND MAGAZINES READING

Access to company news, magazines and professional literature from anywhere and at any time brings new possibilities. Make it easier for employees to access and read. Save time when administering distribution and loans.
