MC CATALOGUE

Materiel Codification Catalogue

We are the world leader in software and expert consulting services for the NATO Codification System (NCS)

NATO Codification System

NCS is a unique identification system which examines a materiel item, compares it with other items and allocates a unique NATO Stock Number (NSN) to items with the same:

- FIT
- FORM
- FUNCTION

Based on the US Federal Cataloguing System that was found in 1950s.

Benefits of NCS

1 Common supply language

Providing a mechanism to enable us all to speak the same logistics language is invaluable in any support chain

2 Saving money

A unique identification system helps avoid duplication, reducing purchasing and management costs

3 Support of logistics

Interoperability between national and multi-national forces, suppliers, manufactures…

MC CATALOGUE
The most spread codification tool worldwide

AURA

PUBLI

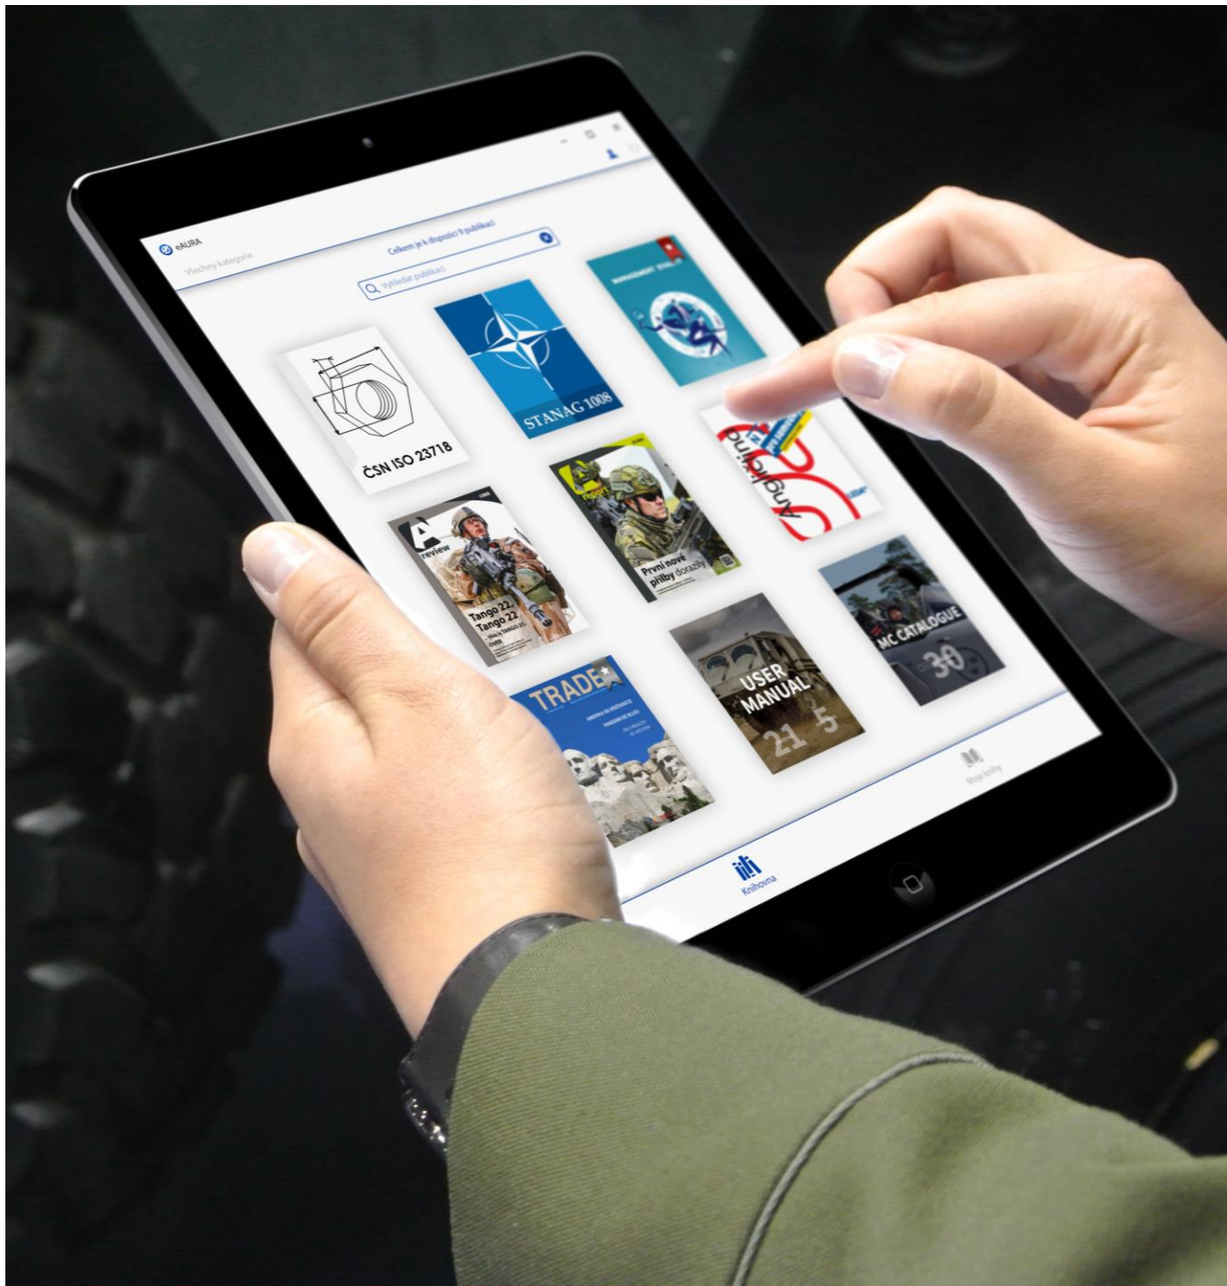
Platform for secure document distribution

Platform for publishing and distribution of documents to mobile devices and desktops

Creation and sharing of entire libraries or single documents like **standards**, regulations, **technical documentation**, laws etc. including **control over their validity**.

Thanks to **encrypted storage**, the documents never get into the wrong hands.

All publications can be read **on-line** and **off-line** on **PCs**, **tables** or **smartphones**.



UNIQUE SOLUTION

for the most secure distribution and documents sharing

A comprehensive platform with the highest level of security that adapts to you.

We have developed a platform that prevents unwanted distribution, downloading and printing sensitive information. Get an overview of documents and ensure that they are up-to-date on all devices of your partners or employees. Always keep your contracts, guidelines, technical drawings, manuals, business documentation etc. up-to-date with advanced security against unwanted sharing. Define rules for your documents and simplify their distribution.

SECURITY

The highest data protection with content encryption on the client's side and secure delivery using the device identification itself.

CONTROL

Get full control over who, when and on what device has access to documents in a secure electronic library.

MONITORING

Get an overview of using, downloading and printing of your distributed documents to ensure traceability and compliance with established business processes.

ELECTRONIC LIBRARY

secure distribution and access to sensitive information

CONTROLLED DISTRIBUTION

Get control over who can read, share and print important documents.

ACCESSIBILITY

Documents are available on computers, tablets and all mobile devices on-line and off-line.

E-LIBRARY

Overview of documents in your own secure electronic library brings convenience for administrators as well as clients.

AUDIT AND REPORTS

Analytics provides a detailed overview of work with documents on the client's side.

DOCUMENT UPDATES

Any changes of final documents are automatically synchronized on all devices to prevent outdated and multiple file versions.

CONTROL

Confirmation of reading documents and creation of checklists and tests enable effective control and fulfilment of process requirements.

MORE FEATURES

unique interactive elements

RESPONSIVE AND INTERACTIVE DOCUMENTS

In Publi you can create fully responsive e-books and documents with interactive elements called M-books. These can be enriched with animations, videos, voice recordings and other multimedia elements that make them easier to understand.

EXCERCISE AND UNDERSTANDING

Publi contains tools for the creation of tests. They can be part of an e-book or a separate publication and they can serve to verify understanding and evaluate content. There are other possibilities of use according to the user's needs.

EFFECTIVE CONTROL AND CHECKLISTS

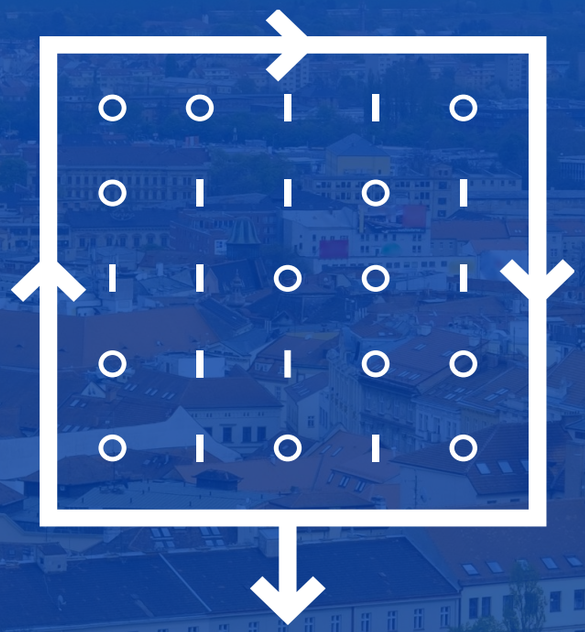
Publi can be used for creating checklists, distribution and inspection. Repeated processes, such as maintenance or revisions, when the employee goes through a list of tasks during work and the resulting states are monitored and reported to the supervisor. Filling in the checklist can be performed off-line even in difficult conditions.

READING PROFESSIONAL LITERATURE AND MAGAZINES

Access to company news, magazines and professional literature from anywhere and at any time brings new possibilities. Make the access and reading easier for your employees. Save time when administering distribution and book borrowing.

Our approach

- Realistic in technical solution, resources availability, price
- Fair
- Transparent
- Communicative
- Flexible
- Positive



Thank you for your attention
