[www.komcentra.cz](http://www.komcentra.cz)

The Rapid Deployment Dispatch (RDD) is a set of hardware and software dedicated to set up a fully equipped post for field operations command and control including its own integrated communication resources.

## **DISPATCH CONSOLE**

Each workplace consists of twin-monitor workstation, stable touch-screen, wireless headset and audio control panel.

## **COMMUNICATIONS INTEGRATION**

Four integrated TETRAPOL radio terminals and a GSM/GPRS modem can be used for communication. RDD is equipped with appropriate antenna system. A VoIP telephone or other communication equipment can be customized on request.

The workstation as well as the server part of RDD are backed by UPS for case of mains failure.

## **TRANSPORTATION**

For the ease of handling all components are packed in ruggedized lockable cases. The Server Box, Server-ACC case and Operator-PCMON cases are wheeled.

## PARAMETERS

### SERVER-BOX

- Ruggedized transport box (LLDPE)
- Equipped with handles, lockable, wheeled
- MIL-STD 648C
- Up to four radio terminals
- Local server
- Gross weight: 115 kg / 250 lbs
- Dimensions: 70 × 93 × 80cm / 28" × 36" × 32"

### SERVER-ACC

- Ruggedized waterproof case
- MIL-STD-810F, MIL-STD-648C
- Gross weight: 24 kg / 53 lbs
- Dimensions: 65 × 50 × 40 cm / 25" × 20" × 16"

### OPERATOR-BOX

- Water-protected box with internal and wide handles
- standardní hmotnost: 16 kg / 35 lbs
- standardní rozměry: 70 × 70 × 40 cm / 27" × 27" × 16"

### OPERATOR-PCMON

- Low-profile box, lockable and wheeled
- standardní hmotnost: 10 kg / 22 lbs
- standardní rozměry: 140 × 49 × 21 cm / 55" × 19" × 8"

### OPERATOR-TOUCH

- Highly ruggedized case
- Temperature proof -27°C to +85°C (-16.6°F to 185°F)
- standardní hmotnost: 11 kg / 24 lbs
- standardní rozměry: 64 x 40 x 20 cm / 25" × 15" × 8"

### OPERATOR-ACC

- Highly ruggedized case
- standardní hmotnost: 7 kg / 15 lbs
- standardní rozměry: 64 x 53 x 31 cm / 25" × 20" × 12"

## RAPID DEPLOYMENT DISPATCH

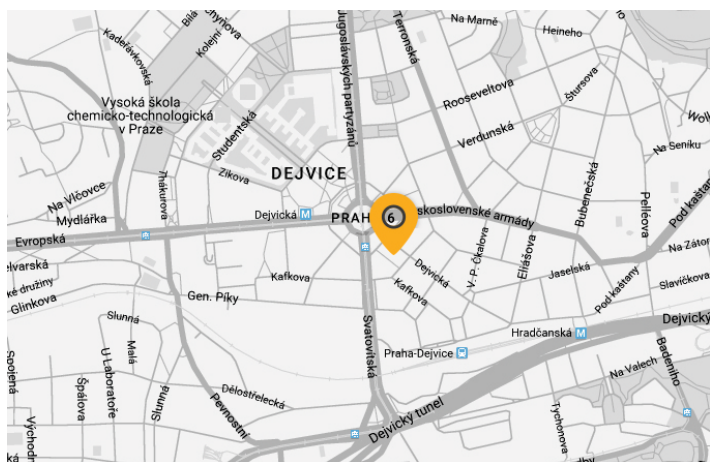

Basic features:

- Components to set up a field dispatch centre.
- Up to four radio terminals.
- Communication integrated into a single control
- Own server enabling to use local apps, data bases and maps.
- Secure transportation in ruggedized boxes.
- Hardware designed for heavy duty and frequent moving.
- Easy deployment and dismantling.
- Simple interconnecting and setup.
- Resulting build can be customized on demand.

# KOMCENTRA

KOMCENTRA Ltd is a systems house founded 1991. Company activities are focused on own development of special hardware and software for realtime applications dedicated to public security.
